

Mid Valley Pipeline Spill Update for 10/29/2014

- There are 452 personnel working the response. EPA has 1 FOSC, 2 contractors, a boat and a mobile command post on scene.
- Total spill volume released was 4509 bbl.
- Recovered crude oil is 3445 bbl. New recovery estimate reflects calculations from oil entrained in soil and absorbents.
- 2647 bbl. of the recovered crude oil has been transported off-site and recycled at Sunoco's Haynesville Station, in Haynesville, LA.
- Water collected to date is 3791 bbl. with 870 bbl. shipped offsite, 1656 cubic yards of soil, debris and sorbent have been collected, none of which has been shipped off-site at this point.
- Wildlife rehabilitation efforts continue. So far, 47 animals have been cleaned, 36 animals released and 477 animals have died, of those approx. 2/3 were fish or reptiles.
- Media interest remains low.
- The weather contingency plan was activated due to the threat of precipitation on 10/28. Rainfall was very light overnight and there were no impacts to Caddo Lake.
- Matt Loesel EPA PSC demobilized from the site today.
